EDUCATION

Dev Bhoomi Uttarakhand University,Dehradun <div align="right">May 2025</div>

BCA - Computer Application (GPA: 8.5) <div align="right">Dehradun, Uttarakhand</div>

- **Relevant Coursework:** JavaScript, Reactjs,OOP Programming ,Operating System,Database Concepts,API Integration and Development.

EXPERIENCE

Cognoscente Invnted Private Limited <div align="right">July 2025 – Present</div>

Full Stack Developer <div align="right">New Delhi</div>

- Developed and maintained dynamic, responsive web applications using **React.js**, **TypeScript**, and **Tailwind CSS**, improving UI performance and user experience.
- Built and optimized RESTful APIs with **Node.js** and **Express.js**, ensuring secure and efficient data flow between client and server.
- Designed and managed **MongoDB** schemas to handle large datasets efficiently, improving database performance and scalability.
- Integrated reusable components and implemented state management solutions, reducing code redundancy and improving maintainability by 25%.
- Collaborated with designers and backend engineers to deliver full-stack features, reducing development time by 20%.
- Implemented authentication and authorization using **JWT**, ensuring secure access control across user roles.

PROJECTS

CIPL.ai | *React.js, Node.js, MongoDB, Tailwind CSS, Git Bash*

- Developed and maintained a full-stack IT services website for CIPL, handling both frontend and backend architecture.
- Built dynamic, responsive UI components using React.js and Tailwind CSS to enhance user experience.
- Designed and integrated RESTful APIs with Node.js and Express.js, using MongoDB for data management.
- Deployed and managed the application on a Linux environment, ensuring smooth server-side performance.
- Utilized Git Bash for version control and efficient collaboration across development stages.

DigiExam.ai | *React.js, Tailwind CSS, Git Bash*

- Developed a responsive frontend web interface for an AI-driven examination platform under CIPL.
- Implemented modular and reusable UI components using React.js and Tailwind CSS for scalability.
- Collaborated using Git Bash for version control and deployment workflow management.

DigiAuth.ai | *React.js, Tailwind CSS, Git Bash*

- Contributed to the development of a digital authentication platform for CIPL, focusing on frontend UI and UX optimization.
- Designed and implemented interactive layouts with React.js and Tailwind CSS, ensuring accessibility and performance.
- Managed source control and project synchronization via Git Bash for consistent code integration.

TECHNICAL SKILLS

Languages: JavaScript, TypeScript, Python
Frontend Technologies: React.js, Tailwind CSS, HTML5, CSS3, Bootstrap
Backend Technologies: Node.js, Express.js
Database: MongoDB, Firebase
Tools & Platforms: Git, Git Bash, Linux, VS Code, Postman, RESTful APIs
Concepts: Full-Stack Development, Responsive Web Design, API Integration, Authentication & Authorization, Agile Methodology, Deployment & Version Control
